The NewOrg Management Software is designed for not-for-profit organizations looking for a way to better manage Client, Service, and Donor data, while improving productivity and reducing reporting overhead and errors.

Increasing competition for funding compels agencies to track and report outputs and outcomes more effectively as funders are requiring more complex and comprehensive grant reporting. For organizations with multiple programs and funders, data management and reporting overhead are increasing, while funds available to pay for this administration are decreasing.

The NewOrg Management System can consolidate and streamline your data management so your organization can FOCUS ON YOUR MISSION.

Complete Data Management

The NewOrg System operates under the principle that your staff's time is valuable; data entry should be efficient and duplication of effort eliminated.

With NewOrg, units of staff activity are entered only once in a simple to use interface, including services, timesheets, scheduling, development efforts, case notes, etc. From this common data, reports for timesheets, client services, billing, grant reporting, productivity reporting, outcome reporting, and payroll can be produced.

NewOrg handles all of your programs, diverse client information, clinical documentation, donors and donations, campaigns and correspondence, and much more in a single, easy to use web interface that can be securely accessed from anywhere with internet access.

NewOrg hosts the system and takes care of all of the setup, administration, and backups, so there is no expensive hardware or network/system management.

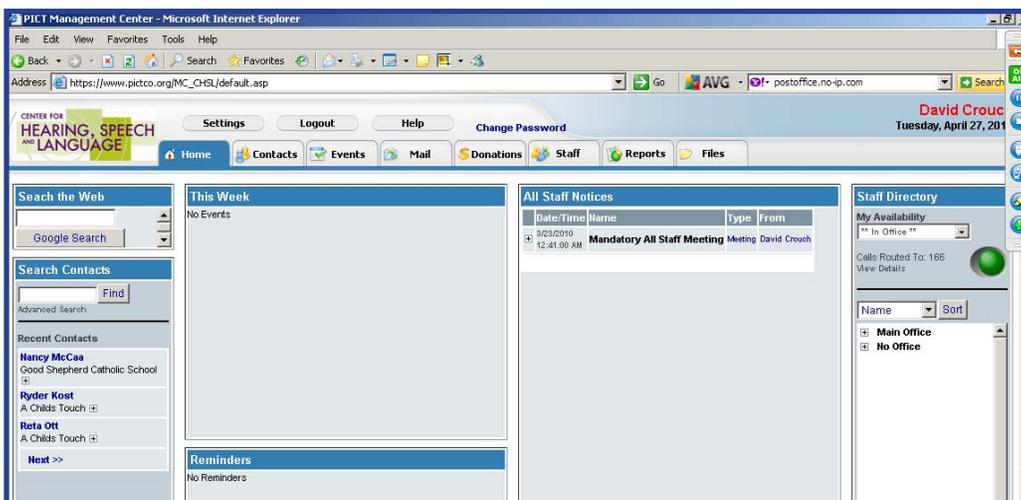

Most importantly, the NewOrg System is very customizable, so you'll never have to fit a square peg in a round hole. It can adjust as your programs and grant requirements change.

Organizational Impact

Implementing the NewOrg Management System will benefit multiple areas of your operations. Below is a broad list of functional areas where NewOrg can be tailored to meet your unique requirements.

- **Fundraising:** If you manage fundraising events, mailings, email and SMS lists, and donations, then NewOrg can help your organization to improve communications with donors, reduce administration overhead, and empower staff to succeed in their fundraising efforts
- **Client/Services:** If you need to track clients and services for billing, grant reporting, staff productivity, and research, NewOrg has the flexibility to streamline your workflow, improve reporting, and reduce the errors and wasted time associated with managing paper records and multiple databases.
- **Grant Management:** If you need to provide regular reports to funders regarding your activities, then NewOrg can reduce the time to produce these reports and improve accuracy and flexibility. NewOrg can also export data so that it is formatted to import directly into your funder's systems, if available.
- **Scheduling & Human Resources:** If you need a consolidated scheduling environment for all of your staff and a way to track hours and activities for payroll and productivity reports, NewOrg offers an enterprise wide scheduling system with a flexible yet simple interface and workflow.
- **Web Site Management:** Maintaining a web site that's current, engaging, and relevant to your various constituencies can be challenging, even with a full time web developer. The NewOrg Content Management system allows your non-technical staff to create and manage a website in a simple to use web interface. It includes drop in components for things such as event management/

NewOrg provides a clean interface to provide a variety of management resources at your fingertips.

registration, surveys, donations, news feeds, newsletter sign up and distribution, private member areas for document distribution and collaboration, calendars, photo

Is NewOrg right for your organization?

NewOrg is designed for organizations with multiple locations, programs, partnerships, and funders. Our typical customer has between 10 and 300 employees at 1 to 50 locations.

NewOrg is flexible and can handle many lines of service including:

Therapy • Counseling • Case Management • Case Plans/Plan of Care • Donor/Donation Management • Referrals • Outpatient Treatment • Homeless Services • Advocacy • Prevention • Testing • Outcome Management/Reporting • Outreach • Volunteers

Getting Started with Complete Data Management

The NewOrg Management Center is priced and delivered to make it easy to purchase and implement. Implementation time depends on the size of your organization, number of programs/funders, and how many functional areas you would like to address immediately.

To get started, contact us and a NewOrg Specialist will answer any questions, help define your requirements, and provide you with pricing and an implementation timeline/plan. Contact us now for details about how NewOrg can help your organization!

Important note: NewOrg respects confidentiality— all displayed screenshot contact records and service data are generated from anonymized test server data.

Client Management

Whether your organization provides drug treatment, case management, outpatient therapy, counseling, or almost any other type of service, NewOrg can help you track clients, demographics, diagnostic information, service delivery, prescriptions, and just about anything else. This data can then be formatted for reports for funders, for operations, for productivity analysis, for payroll, and for outcome analysis.

The NewOrg Management System is built on a flexible foundation that can be easily tailored to almost any type of organization. Custom fields can be created and arranged for ease of use and permissions can be assigned so that you collect the right data for each type of client and program, and only authorized staff can access it.

Track and report on hundreds of custom data elements related to clients tailored to funder or program requirements. Track services, treatment plans, sessions, diagnostic results, referrals, pre/post tests, etc. The NewOrg System is designed to easily accommodate multiple service models for all of your programs!

All of the general features of the application are already there, we will work with your staff to implement your data, rules, and business practices. Your organization can be up and running in less than 30 days. Most importantly, our staff are there to provide ongoing assistance as your needs change. We will continue to assist when you add new services, new funders, or require new field or reports. Best of all, your staff can learn to take care of many of these changes themselves without advanced technical knowledge.

Take as much control as you like, we'll help your client/services management system grow with your organization and mission.

Document Management

The NewOrg Management System provides a centralized document repository that allows staff with appropriate permissions to manage and access common documents and forms over the web from any location.

It also allows for the uploading and storage of documents associated with specific clients and activities. Administrators can establish types and classes of documents (intake forms, waivers, contracts, tests, treatment plans, etc) in almost any format (scanned, pdf, Word, Excel) and give permission to individual users or groups to upload and view them. This provides a permanent record of all documents and allows users to access all critical client information as needed without looking through physical files. Best of all, it is backed up off site and requires no extra storage or security on your servers.

Track program delivery and progress on a client-by-client basis.

Events compile into a calendar overview, allowing scheduling to correspond to compliance deadlines & programmatic needs.

Scheduling & Human Resources

Imagine a simple, single interface for staff to record and manage their time for all of the activities they perform, with ties to payroll, the web, clients, donors, services, and events. It reduces data entry, reporting, and administration overhead, while giving your staff instant access to the information they need to serve your constituents and manage their time.

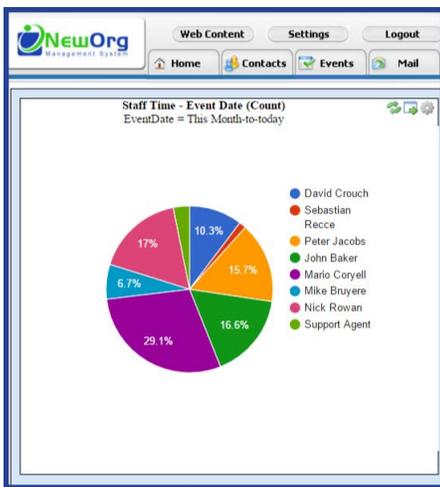

The NewOrg Management System is designed to be a central repository of your organization's data. To be effective, it must be a part of your staff's daily routine. NewOrg provides all of the standard scheduling features you would expect as well as group scheduling, recurring appointments, permission based case notes, time tracking, and all staff notices and meetings.

With an easy to use calendar interface and highly customizable fields, NewOrg allows your staff to easily manage their schedules and record important client and activity information which can then be used for reporting purposes. No more entering appointment and session information in two or three places.

Additionally, appointments recorded in the NewOrg calendar can also be added to user's Outlook calendars and exported to spreadsheets or other formats.

Standard functions such as reminders, recurring events, and multi-staff, multi-client or multifunder events, give you the flexibility to record and manage any type of activity. Document mileage, parking and toll information to ensure accurate billing and compensation.

Your staff perform many different types of activities, many of which require specific detailed information. NewOrg allows administrators to define custom fields based on the type of activity to ensure all relevant information is captured for reporting. Calendar events can be tied to the organization's web site for online reservations, public event calendar, partner calendar and collaboration.

Track staff time on specific cases.

Important note: NewOrg respects confidentiality— all displayed screenshot contact records and service data are generated from anonymized test server data.

Donor Management

Whole Organization Fundraising

The NewOrg Management System not only tracks donors, donations, events, and campaigns. It empowers all of your staff to participate in and contribute to the fundraising process.

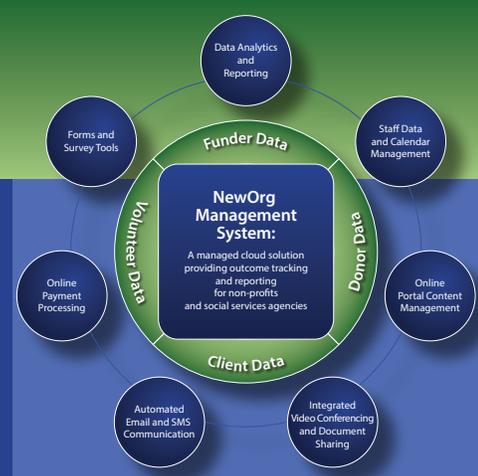

Let your most knowledgeable and committed staff become successful outreach and fundraising experts, without taking time from their mission critical activities.

Donor Management Highlights

With easy to use tools and reports, your development team will have easy access to donors and prospects, be able to quickly gauge the success of campaigns, and be able to standardize correspondence and communications with donors, specific to their profiles.

NewOrg allows for targeted tracking and communication with all of your donors. Send personalized updates, thank you letters, and receipts either by mail, email or SMS with a few clicks.

- Create approved letters and templates for staff to send out via Email and Mail.
- Manage and track all outgoing correspondence with donors.
- Group donors and prospects based on interest, demographics, etc and target campaigns and correspondence to the appropriate people.
- Record attendance and participation in events, meetings, and promotions.
- Track donations by event or promotion and type.
- Color graphs and reports.
- Manage pledges and scheduled giving.
- Accept online donations.
- Report on and analyze donor activity and campaign success.
- Automatically produce and send receipts and thank you letters.
- Fast and easy bulk entry of donations.
- Post donations to your financial system.

The screenshot shows the NewOrg email template editor. The top navigation bar includes 'Web Content', 'Settings', 'Logout', 'Help', and 'Change Password'. The user is logged in as 'Dave Crouch' on 'Friday, July 20, 2018'. The main interface is divided into several sections:

- Mail:** Compose New Mail, Manage bad addresses.
- Mail:** Folders (Inbox, Reminders, PayRoll, Messages, Notifications, Sent, Drafts, Recycle Bin (Void)).
- Templates:** New Template, Templates (Company, Personal, Donations, Sample library).
- Search:** Search by Subject, From, To, Date.
- Statistics:**

Personal	Allowed	Sent	Printed
Today:	100	0	0
This month:	3100	0	0
YTD:	36500	2	0

Company	Allowed	Sent	Printed
Today:	0	0	0
This month:	0	0	0
YTD:	0	2	0
Remaining credits:		0	

The template content includes:

- Name of Template:** Build Day Confirmation
- Subject:** Homes for Humans - Build Day Confirmation
- Dear #[FirsName#] #[LastName#]:**
- Thank you for your willingness to volunteer with Homes for Humans of Ajax County. You are confirmed for our upcoming Build Day at #[Event_Address#] on #[Event_date#].**
- Please note that we ask each volunteer to sign a safety waiver the day of the build. **Volunteers must be 16 or older to work on the site. Any group with volunteers under the age of 16 must have an adult chaperone.****
- Safety Video:** We request all volunteers watch our Homes for Humans 8 minute Safety Video prior to working on a job site. Safety is our main consideration, so please take the time to remember the important safety measures and standard precautions for construction sites.
- Work Day Schedule:**
 - 8:30 am-- Volunteer Safety and Orientation
 - 9:00 am-- Begin Working
 - 12:00 pm-- Lunch Break
 - 1:00 pm-- Resume Working
 - 3:30 pm-- Clean-Up
 - 4:00pm-- End of Day
- What to Bring:** Volunteers should bring their own water bottle and bag lunch. However, some groups choose to make other arrangements and may have pizza or sandwiches delivered at a specific time. Please wear appropriate clothing and know it may get damaged and dirty as you will be working on both interior and exterior projects. Closed toe shoes on the work site is a must!
- Homes for Humans will provide any necessary tools on site, unless we've contacted you about a specific need. Feel free to bring your own work gloves or favorite hammer, knife or other multipurpose tool you're used to using.**
- Should we need to cancel the build day as a result of weather or another type of unforeseen event, we'll notify you and your team in two ways. First, we will post the cancellation notice on our site. Additionally, we will email you and send an SMS message to the contact information you provided earlier.**
- If you have any questions please don't hesitate to contact your team leader or Homes for Humans Ajax County.**

Use NewOrg's email template tools to create effective email campaigns for funding and other support.

Manage events, newsletters, thank you letters, receipts, and appointment correspondence from the same easy to use interface.

SMS Texting: Adding to the robust existing mass email tool set built into the NewOrg Platform, organizations can extend their outreach to clients, donors and volunteers via NewOrg's SMS texting capabilities. Provide automated responses, updates, reminders, notifications, newsletters, and forms/survey links directly to your clients, volunteers' or donors' cell phones. Automating these processes can be quickly and easily implemented by your staff using sets of pre-existing templates built for your organization.

NewOrg Messaging Center Manage internal messaging with your colleagues, create custom groups to communicate with your team in NewOrg. Share contacts, events, forms, surveys, and print forms with other staff in an easy, quick way. Improve communication, administrative and operational tasks using NewOrg's internal messaging system.

MS Outlook Integration

NewOrg integrates with your MS Outlook client so that you can view your NewOrg contact and calendar information from Outlook in real time. Decide which groups of contact and events to synchronize so your staff has access to all the data they need without compromising security and confidentiality.

Email & SMS Distribution

NewOrg makes communicating with large constituencies simple, auditable, secure, and easily customizable.

The NewOrg integrated list management and email system allows specified users to send targeted email messages to any cross section of your database. Permissions for email allow different users access to different people and all emails are tracked and recorded.

Appropriate users can manage large email lists, create standard email templates, send email to large lists based on any criteria defined about contacts such as events they have attended, past donation history, physical address, income level, interest areas, predefined groupings, or any other custom field.

Templates can be made available to different users to ensure a consistent message and quality of content.

Contacts without email addresses can be sent SMS or physical mail automatically from the same interface.

Export contact lists to use in mail merges, invitations, or to send to a printer.

Combine your mail list, email lists, event registration list, donors, and clients. Let the appropriate users send correspondence to each group in the most appropriate ways and watch the results.

Reporting

Funding organizations, both public and private, continue to increase the level of reporting they require of funded agencies. This places strains on the administrative staff at many organizations as they struggle to track and report on many different elements for multiple funders. Entering the same data several times has become common. Maintaining accurate statistics, prepared in a timely fashion is challenging without a central repository of all client, staff, and service information.

NewOrg addresses these issues by centralizing all organizational activities and providing each staff member with appropriate access to enter, maintain, and report on their daily activities. NewOrg supports an almost unlimited capacity to store and manage custom information.

With some basic training and quality assurance procedures, this information can then be used to compile reports for funders, to track performance against grant requirements, and to maintain billing information.

NewOrg's custom report builder allows our staff or your administrators to develop a wide variety of reports covering all aspects of your organization's business processes. These can be tailored to meet specific funder's data requirements and even be used to upload to funder's systems.

The NewOrg System can help your organization reduce the time and overhead associated with Grant Reporting by up to 80%, while improving transparency and helping management gauge progress towards grant related and organizational goals.

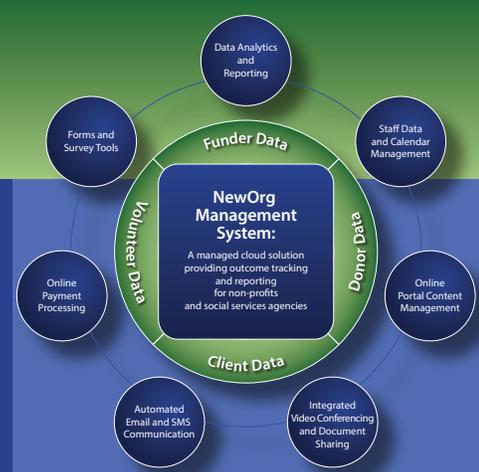

Let your managers focus on your mission, with tools to monitor performance and success.

Productivity Reporting

Providing managers with immediate and meaningful insight into organizational effectiveness and productivity is a core part of the NewOrg Management System's features. Importantly, reports and statistics can be tailored to each organization, department, and manager.

NewOrg lets your supervisors and executives track the performance and productivity of all aspects of your operations. This operational transparency allows your organization to better allocate resources, adjust to market trends, and evaluate performance.

Get the information you need to make critical decisions, obtain funding, evaluate programs and staff, report to funders, and tailor your services to changing needs. A centralized NewOrg System provides these benefits without requiring additional data entry.

Outcome Tracking

Being able to identify strengths and weaknesses in your services and delivery model can impact all areas of your organization, from programs to fundraising.

NewOrg lets you define the services, issues and outcomes that are key to your mission and then create reports which reveal the results of your efforts. Drill down into specific cases or view multi-year summaries of your changing services. Flexible and accurate outcome reporting will give your organization the intelligence it needs to adapt and improve while providing your staff with the information funders are requesting.

One of the key advantages to NewOrg's comprehensive platform is the analytics generated, allowing managers and program heads to view performance and measure effectiveness on multiple levels.

The dashboard features a navigation bar with links for Home, Contacts, Events, Mail, Donations, Staff, Reports, Files, and Dashboard. It contains several data visualization reports:

- Events by Department:** A pie chart showing the distribution of events across departments: Admin (12.2%), Community & Integration Services (65.7%), Employment & Bridging (14%), Language Services, SOPA, Support Services, and Temp / N/A.
- AICLF Program Start - (Summary):** A table listing NOC codes, event counts, and the number of dependents.

Primary/Current NOC Code	Event Date (Count)	Names (Count)	# of dependents (Sum)
0621 Retail and wholesale trade managers	2	2	0

- 7. GAR Activity Event Spaces(Live) - EventDate (Count):** A pie chart showing the distribution of GAR activity event spaces across different time periods.

Exporting Data

The NewOrg system allows you to create reports and lists which can be exported to other formats such as Excel, tab delimited, and flat files. This allows you to send reports and the underlying data directly to funder's systems, import service information into a billing or accounting system, or analyze the data in other software such as Excel or SPSS. Whether you need line by line details or are creating color graphs for an annual report, NewOrg has the data and simple ways to get to it.

Integrated Video Conferencing

In this current environment of social distancing NewOrg has recognized the need for organizations to provide Services and conduct Client and Staff meetings remotely. The NewOrg platform now provides Integrated Video Conferencing to meet these challenges. Meet with your clients and staff members remotely via audio or video conferencing sharing while your computer or mobile device screen with the attendees.

The ultimate multi-functional tool, NewOrg's video conferencing component provides a user-friendly interface to maximize remote communication. Built-in features include chat and multiple screen sharing.

- Video conference setup is easy and launches straight from events you have created in NewOrg.
- Multiple camera formats, and gallery views for all attendees.
- Share NewOrg assessments, surveys, and print forms to client and obtain electronic signatures.
- Video conferencing participants can share and upload documents or picture of documents that can be prompted in meeting by the case managers and frontline staff.
- Documents uploaded in meeting can be saved in real time to the client record saving your staff time and ensuring documents are linked to the client's record.
- Cut down on the time required to correspond with your clients via email.
- Reduce waiting time for key service document to be completed before services can begin.
- One simple meeting invite link to the "NewOrg Video Conferencing Center" for your contacts. This allows staff add invited to existing automated or manual email templates and texts to invite clients to attend the meeting, minimizing setup time.
- No 3rd party video contract.
- All meetings, file sharing and signatures are securely conducted and stored within your NewOrg System, HIPAA/PIPEDA compliant.

Also provided in the new video conferencing feature is the capability to share meeting documents in real time.

Meetings initiated through the NewOrg video conferencing feature allow host to prepare forms and other documentation in advance of the session, making it a powerful tool in dealing directly with clients, staff, volunteers and other stakeholders.

Company overview:

NewOrg Management System, Inc. designs and develops outcome management systems for social services organizations and governmental agencies providing community services. NewOrg is a cloud-based, client management and reporting database that is professionally implemented to provide tailored turn-key solutions that support Case Management, Client Services, and Volunteer Programs; assisting staff, managers, and executives to track and attain progress towards targeted outcomes in employment, health and social services goals; and support services to children, families, the disabled, seniors, homeless populations, and communities. NewOrg also supports government agencies to realize wide ranging impact through their work with service providers, referral partners and other agencies; NewOrg allows social services organizations to spend less time on compliance and funder reporting, and focus on the delivery of services to their constituents. NewOrg Management System, Inc. serves nonprofits and public sector organizations worldwide. The company was founded in 2006 and is headquartered in Washington DC.
